

What is it?

This low-cost “insurance” plan ensures that in a life-threatening illness or accident, you receive free air flights from right here in our own community (by the Club House) to the nearest major hospital. Sometimes, minutes matter.

Many community members have already joined the Network. The coverage includes anyone that is considered a part of your normal household and does not only apply to accidents/illnesses here at home. This is true if you are travelling or visiting with friends or family and need immediate medical attention but the nearest hospital is too far to drive to quickly.

Is this included in our annual dues?

It is not included in annual dues and is strictly voluntary to join. You will be responsible to pay any fees annually or every 3, 5, or 10 years, depending on the package you choose.

Can I cancel anytime?

According to their website, you can cancel anytime you like. However, once you pay the dues for the year, you might as well keep it for the year. You will receive a notice when it is time to pay again.

How can I find more information and join?

Take a look and see if it works for your family.
